DETAILED ACTION

Receipt is acknowledged of the amendment filed 09/29/2006.

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Applicant's arguments, see response filed 09/29/2006, with respect to the rejection(s) of claim(s) 33-35, 41-42 under 35 USC 102(b) and 35 USC 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of US 2002/0155961.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3, 18-21, and 43-45 are rejected under 35 U.S.C. 102(b) as being anticipated by US 2002/0155961 (US application serial no. 10/044,373, now allowed).

US 2002/0155961 set out a dexpanthenol composition for contact lens care (Abstract; page 1, [0002]; claim 1). Excipients such as antimicrobials, buffers and surfactants are listed at [0006] – [00014]. All types of contact lenses are contemplated for cleaning and disinfecting by this composition [0023] – [0025]. The instant claims are anticipated by US 2002/0155961.
